

Prambanan is a beautiful Hindu temple built by Ancient Mataram Dynasty around 856 AD. And since 1991 it is listed as a UNESCO World Heritage. It is the largest Hindu Temple in Indonesia and the tallest Hindu Temple in South East Asia. Since the temple structures are tall and in the area surrounding it there are no taller structures, it can be seen clearly from the outdoor venues in the recreational park of Prambanan and can serve as a beautiful backdrop for events being held in these venues, making events more memorable.
